Reception

April 2022

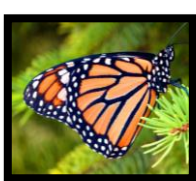

Spring 2

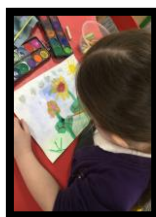

At the end of this half term, we have many achievements to celebrate. Such as the fantastic research projects done by the children on their mini-beast teams, where we have seen some amazing creations, pictures and posters! I wanted to thank you all for your support and dedication to bringing our learning to life!

We have watched live caterpillars transform into butterflies and tracked their metamorphosis before releasing them into the wild.

We have created a nature scene using watercolours and various materials and the results have been outstanding.

Up next: Summer 1

Next half term our topic is: 'Turn the page.' Where we will look closely at traditional stories and use our imaginations to innovate and create new stories of our own! We look forward to immersing ourselves in another fantastic topic.

Phonics

The class have made outstanding progress with our passion for reading and writing. We are now moving towards our Early Learning Goals of writing independently with capital letters and full stops.

Box Modelling

Many of our children love to make models and we are always in need of materials. If you have any spare we thank you for your donations of cardboard tubes, small boxes, washed plastic containers and lids.

Easter

We hope you have a lovely Easter holiday and we look forward to welcoming you back to the academy on Monday 25th April.
