

# #OPAKandPROUD

# A message from our Leaders...

Hello everyone. This is a note from the children in school who have different responsibilities around school. We play a key role in organising different events throughout the year. We are here today to introduce ourselves and say what we are looking forward to doing this year.

## Reading Ambassadors

Our role in school is to help inspire children to read. We want to make sure all children enjoy reading. We will also be sharing our favourite books as well as reviews of books we have read. We can recommend books for children to read if they are struggling to find one.

We are looking forward to planning events such as Book Week and World Book Day!

## School Parliament

Our main role is to be the voice of the class!

We are here to represent them in the School Parliament. If they have a big issue or a problem they want solving, then we can discuss it in our meetings and see if it can be solved.

We are in different departments, so we all have different areas to promote. The departments are: Education, Enterprise, Health, Sport, Energy Saving, Equality and Inclusion. So we have a big responsibility.

We are looking forward to raising awareness of fundraising for charities across the year.

## Restorative Practice Leaders

Our role is all about helping people. If children fall out or have an argument they can come to us for help. We support children to make friends again by using positive and reflective language.

We are looking forward to raising awareness during Anti-Bullying week. We also want to raise our profiles through assemblies and role play so that children in school feel comfortable talking to us.

## Wellbeing Champions

We are here to help anyone in school who may be feeling sad or upset. We believe it is important for people to have a positive mindset because it helps with your everyday life. Having negative thoughts can impact on your learning.

We are looking forward to showing people that they don't have to be sad and we are here to listen if they need us. We are excited about being bucket fillers and spreading the happiness.

## Digital Leaders

We are here to help other children become more confident when using technology. We will help others when they find something difficult so that they will hopefully be able to do it themselves next time.

Being a Digital Leader will allow us to encourage children to use different types of technology and programmes as well as helping them use it.
