

Dear Parents/Carers,

Next half term, our Diploma will be around the theme of 'Have High Aspirations and Skills for Adult Life'.

As part of this, we would like the children to hear all about a wide range of careers.

We would love to get our parents/carers involved and are hoping that you could record a short video all about your careers, using some of the prompts below as a guide.

If you would be willing to record a short video of yourself (between 5 and 10 minutes), please send an email to enquiries@kirkhamgate.outwood.com. We will add your child to a new Google Classroom using their Gmail account. You will then be able to upload your video into that classroom.

If you have any further questions about this or want to check something, you can also email the enquiries address above.

The video could simply be you talking about your career or could include a tour of your place of work or any equipment you use. Feel free to be as creative as you wish!

Prompts for the video:

- child name and class*
- who you are and what you do*
- where you work*
- why you chose your career*
- what qualifications/skills are needed*
- what you do on a daily basis*
- what you love about your job*

We look forward to hearing about your careers!

Thank you,

Mrs Fozzard
