Applying Physical

Project Idea

Dragons!

This half term we will be using the theme of dragons within our lessons. In computing we will be creating a google slides presentation about a wanted dragon and will also be creating dragon animations! In Art, we will be looking at the work of Kandinsky and exploring the colour wheel by creating circles using different textures. We will also be exploring everyday materials and which materials can and cannot be recycled.

Here are some ideas for your homework project:

Create a dragon picture (be creative) you could sketch it, use recycled materials, paint it, use a computer program.

Mix together paint to create a Kandinsky style picture.

Create fact file/quiz on everyday materials.

Make a video dairy over the term of you sorting the rubbish into recyclable and not recyclable.

Create a 3D dragon model.

Your homework will be due on 23rd May 2022.

We can't wait to see what you come up with!

Follow our class page to find out about the exciting work we're doing this year @OPAK_1RW
