## Project Idea

**On Tuesday, 24<sup>th</sup> May, we will have a homework presentation afternoon in class. Children will share their homework projects with the class, and have an opportunity to discuss what others have learnt about the topic.**

**Below are a few suggestions – but please feel free to try something of your own!**

- Take photos of electrical appliances in your home and explain how a simple circuit works
- Use google slides to create a presentation about conductors and insulators
- Write an explanation about global environmental issues/plastic pollution
- Write a Haiku /Cinquain poem about plastic pollution / global issues
- Record a short video in which you discuss your views about environmental issues
- Create a quiz using your knowledge of electricity / global environmental issues
- Investigate and design a circuit game using your DT knowledge
- Create a fact file about the artist Leonid Afremov and his work.

**You can submit your homework in the following ways:**

- Written work (work/photos/pictures in your homework book)
- Presentation/website (digital submission)
- Tweet (via the class Twitter page @OPAK\_4KL)
- Sculpture/model (or a picture of these things)

Follow our class page to find out about the exciting work we're doing this year @OPAK\_4KL
