

## Outwood Primary Academy

Hello parents and carers, this half term your child will be learning about...

### Project Idea

Our main topic focus this half-term is Earth and Space. We will also be studying Manga in art and creating our own mechanical toys in design and technology.

You can choose what you want to do for your topic homework and how you want to present it, but here are some suggestions to get you started. Can you link your homework to another area of the curriculum?

- *Maths*- Create a table comparing the distance of each planet from the sun
- *English*- Write a diary entry of an astronaut travelling around outer space
- *Science*- Create a moon phase calendar
- *Art*- Produce your own manga comic strip
- *DT*- Create a model of the solar system
- *Geography*- Create a leaflet advertising life on another planet
- *History*- Present information about a famous historical astronomer
- *MFL*- Write a weather report in French
- *Music*- Write your own pop song about the wonders of our planet
- *PE*- Create a poster displaying the rules of rounders
- *Computing*- Design your own website about famous manga artists

Remember, you can choose what you want to do for your project and you aren't limited to just one idea. I'm looking forward to seeing your ideas and what you come up with!

Your homework needs to be in school on **Monday 17<sup>th</sup> July.**

Follow our class page to find out about the exciting work we're doing this year @OPAK\_SLD
