

# Outwood Primary Academy

Hello parents and carers, this half term your child will be learning about...

Y2

The Local Area & the UK

Plants

Andy Goldsworthy

Programming: Getting Started

Judaism

Culture

Our Planet

Resilience

Resilience

## Project Idea

Welcome to our summer term! Our topic this half term is 'The Local Area' and we will be using our geographical skills to look at the Local Area and the UK. We will also be exploring the topics 'Living things in their Habitats' in Science and 'Maria Prymachenko' in Art. Here are some ideas you might want to complete for your topic homework this half term:

- Explore the local area and take pictures of what you find
- Research animals in their habitats
- Explore maps of the local area and the UK
- Create a tourist brochure for our local area or somewhere in the UK – what exciting things are there to see and do?
- Can you find out about people's jobs/cars/families/hobbies in the locality? You could make a graph to show what you have found out!
- Create a painting inspired by Maria Prymachenko

Please complete your homework project and bring it into school on the final Wednesday of term (19th July).
