

## Outwood Primary Academy

Hello parents and carers, this half term your child will be learning about...

Y3

Romans

Roman Helmets

Forces and Magnets

Christmas Meaning

Shapes and colours

The Past

Cooperate

Investigate

### Project Idea

This half term our topic is the Romans, which links in with our art topics of Roman helmets. In science, we will be learning about forces and magnets. Our Diploma is 'keeping Myself and Others Safe'. Here are some ideas for your homework project, but feel free to come up with your own ideas.

- Draw and label a Roman Helmet or Shield.
- Create a fact file about a Roman Soldier.
- Write a letter from a Roman Soldier.
- Create a presentation on forces and magnets.
- Write instructions on how to stay safe on the road.
- Create a presentation on Roman Life.

Above are just some ideas of projects you can create. We look forward to seeing more of your fantastic projects to share in class. We would like projects in for Monday 18<sup>th</sup> December 2023.

Follow our class page to find out about the exciting work we're doing this year @OPAK\_3FL
