

## Outwood Primary Academy

Hello parents and carers, this half term your child will be learning about...

Y3

Earthquakes

Plants

Perspective

Earthquake Proof Buildings

All About Me

Food

Improving My World

Investigate 1  
(gymnastics, Trinity)

Independent 1  
(badminton)

Diploma: Protect &  
Respect the Environment

### Project Idea

This half term our topic is the Earthquakes, which links in with our D.T topic of Earthquake Proof Buildings. In science, we will be learning about plants. Our Diploma is 'Protect and Respect the Environment'. Here are some ideas for your homework project, but feel free to come up with your own ideas.

- Complete a fact file about an earthquake of your choice.
- Write a set of instructions on how to stay safe in an earthquake.
- Draw and label a plant.
- Create a poster about protecting the environment and the impact of litter.
- Design an earthquake proof building.
- Draw a perspective drawing.
- Create a slideshow about what plants need to survive.

Above are just some ideas of projects you can create. We look forward to seeing more of your fantastic projects to share in class. We would like projects in for Monday 5<sup>th</sup> February 2024. We would like to invite parents and careers to join us for a topic sharing afternoon from 2:15pm.

Follow our class page to find out about the exciting work we're doing this year @OPAK\_3FL
