

Dear Parent and Carers

Our Master of Maths are aiming to raise the profile of Maths across the academy. The children lead the representation in our role of Maths Excellence within the Outwood Primary Academies Trust.

Next week, our Masters of Maths would like to invite all the children to take part in 'Number Day 2022' in association with the NSPCC.

The aim of the day is to promote maths in the academy whilst also supporting the NSPCC through their mega maths fundraising day.

The children are invited to participate on Number Day by "Dressing up as digits" and wear an item of clothing or accessory with a number on it. It could be a cap, socks, or any other accessory. If your child would like to, they could even dress as something to do with maths - a mathematical symbol, a famous mathematician or even dressing up as a calculator or ruler! Let your imaginations run wild!

If you would like to support the NSPCC in their mega maths fundraiser, donations can be made at <https://www.nspcc.org.uk/support-us/ways-to-give/donate/>

We hope your child can enjoy our Maths Day, learn some new maths facts and help to raise some funds for the NSPCC charity.

There will be a variety of other activities taking place throughout the day, so please keep up to date via our Twitter account, @OPA\_KHG, where we will be tweeting using the hashtag #NumberDay2022!

Many thanks for your continued support.

Mr D Horan

Maths Lead
