

Outwood Primary Academy

Hello parents and carers, this half term your child will be learning about...

Y1

Seasonal Changes (Spring & Ongoing)	Everyday Materials	Animals	Magical Storytelling	All About Me	Clothes	Improving My World	Investigate 3 (movement, Trinity)	Respectful 3 (throwing)	Diploma: Protect & Respect the Environment

Project Idea

Our Science focus this half-term is Everyday Materials. We will be studying Steven Brown within our Animal Art.

You can choose what you want to do for your topic homework and how you want to present it, but here are some suggestions to get you started. Can you link your homework to another area of the curriculum?

Maths- Make a poster which shows how you can sort materials in different ways

English- Create a poster about how to protect the environment

Science- Collect Everyday Materials and create a poster to explain their properties

Art- Produce a piece of work in the style of Steven Brown

DT- Create something out of Everyday Materials

Geography- Find out about different animals from around the world

History- Create a portfolio with facts and pictures about how the environment has changed

MFL- Create a poster yourself in French

Music- Perform a song about the world

PE- How long can you hop on one leg or how far can you throw?

Remember, you can choose what you want to do for your project and you aren't limited to just one idea. I'm looking forward to seeing your ideas and what you come up with!

Your homework needs to be in school on **Monday 5th February.**
